“ We’ve seen an increasing number of customers seeking sustainable industrial logistics buildings and their reasons for doing so are based on more than a basic desire to help the environment. By choosing a Prologis building they can reduce energy costs, locate their operation in a building which is equipped for the future and demonstrate to their customers that they are committed to sustainability at every stage of the supply chain.

As the long term owners of the buildings we develop, integrating sustainability into our business model makes sense both economically and environmentally. By developing buildings that are best in class we can attract customers who will stay with us for the long-term, in buildings that are designed with the future in mind. ”

“ From initial meetings, to handing over the completed unit, the Prologis UK team made the whole process as easy as possible. Regular project meetings allowed for a high level of collaboration and adaptability, with our operational needs always front of mind. The project team’s openness allowed us to make changes to the design specification to ensure that the building would work for Hankook, both today and long into the future. The Prologis team were professional and had excellent attention to detail, working closely with our team and external advisors to ensure the project was a success and resulting in the early delivery of a very high-spec building with an excellent quality finish. ”

Chang Yool Han, Managing Director of Hankook Tyre UK

PARKlife™

At Prologis, we aim to create a high-quality working environment for all our customers. Our buildings are on Prologis Parks, which we own, manage and maintain, so when customers move to one of our buildings, they can benefit from a range of park-wide services that we have designed to support their business operations.

A WORKOUT WITH A VIEW

We believe our network of 22 Prologis Parks in the UK provide the perfect environment to encourage physical activity for both employees and the local community.

Prologis Park Wellingborough West provides an outdoor fitness trail with a 1 mile walking and running track around Zone B of the Park. This trail includes a different piece of outdoor fitness equipment at 5 locations along the track, with information boards at each fitness station introducing the equipment and its correct use. We've also included equipment suitable for use by those in wheelchairs, ensuring everyone can benefit from the fitness trail.

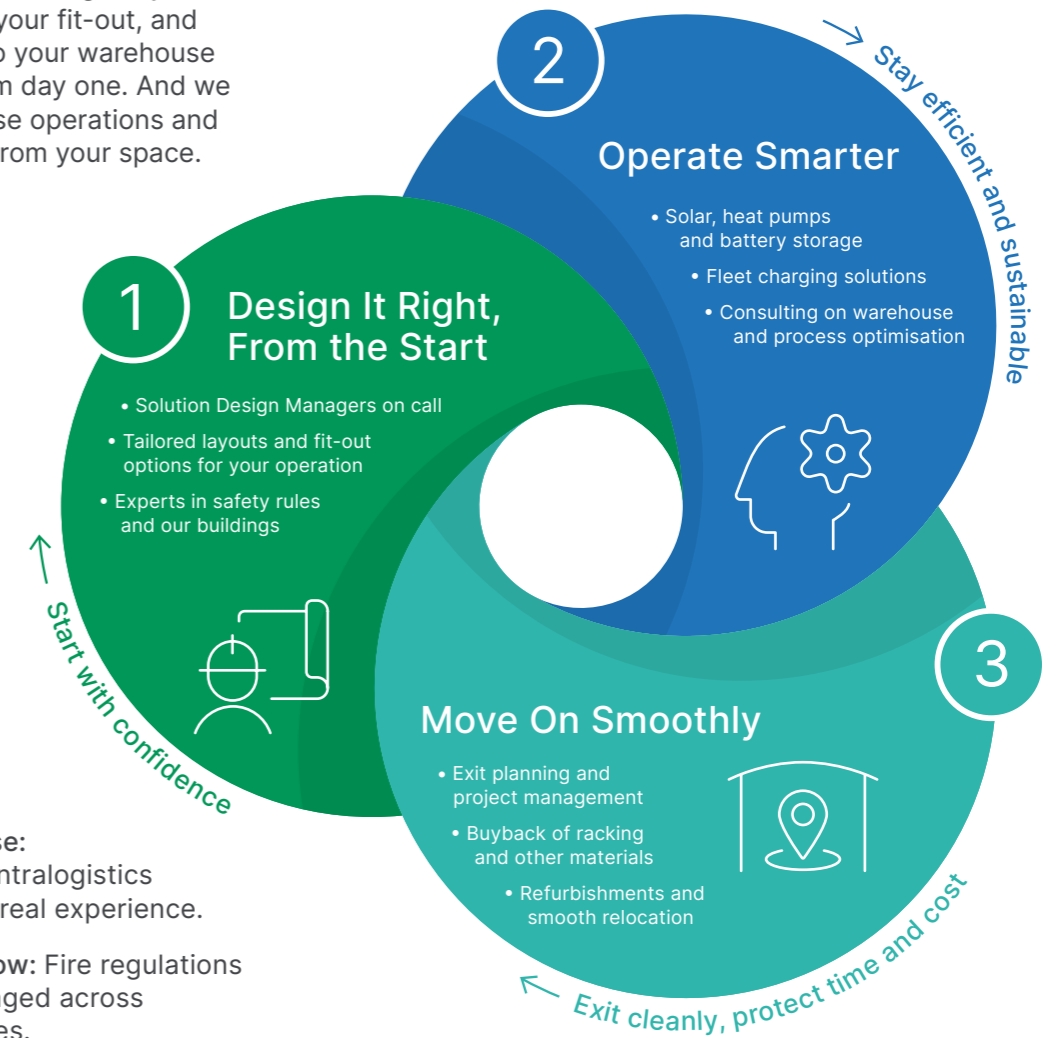

Exercising outdoors is now incredibly popular and our fitness trail at Prologis Park Wellingborough West is used regularly by the local community, including local running and fitness groups as well as those who work in the buildings on the Park.

Your Journey, Powered by Prologis Essentials

Before you move in, Prologis Essentials gives you a confident start. the extra space you need only when you need it

in our fast-moving
economy, predicting the
future can be tricky.

What makes things even more complicated is that while logistics can change quickly, real estate moves slowly. Flexxtra is here to help – giving you space to plan ahead and adapt in no time.

➤ fresh, fast, flexible

We provide modern, fast and flexible storage solutions for businesses with changing needs – no strings attached. With Flexxtra, warehousing becomes that bit simpler: pay only for the extra space you need, when you need it.

And the best part is, Flexxtra is powered by Prologis – the world's biggest industrial real estate owner and partner to some of the world's largest companies. So you can trust that your goods are in the safest hands possible.
