

PROLOGIS ESSENTIALS CASE STUDY

Brighter Lighting Boosts Efficiency, Cuts Costs and Raises Morale

A warehouse manager found that brighter LED lighting made employees more efficient and also brightened attitudes on the job.

Our customers tell us that Prologis LED lighting solutions deliver strong productivity gains in their warehouse operations. In addition to improving productivity, this warehouse manager sought to lift the mood of his employees and eliminate temporary work stops caused by burned out fluorescent light bulbs. He had these goals in mind when he heard about a new LED lighting solution offered by Prologis Essentials.

Just one cent per square foot

The manager was pleased Prologis could implement LED lighting in his warehouse at a cost of only one cent per square foot. Prologis covered all upfront costs to install the LED fixtures, so the manager avoided these capital expenditures and saved money on his electricity bill from day one. LED lighting is 60 percent more efficient than traditional warehouse lighting, and Prologis' customers get to keep 100 percent of the savings.

Happier all around

The manager was relieved that Prologis installed the LED fixtures without causing a huge disruption in his operations. And because LED lighting is virtually maintenance free, he no longer worries about dark aisles and decreased productivity when a bulb goes out. He also noticed that his employees seem happier working in a brighter environment.

Prologis Essentials

Prologis Essentials is the convenient way for facility managers to quickly and cost-effectively source products and services by leveraging the advantages of scale. Prologis works as a trusted partner and advisor at every step. And, as customer's needs change and evolve, Prologis will continue to introduce new solutions to solve the most important problems.

OBJECTIVE

Increase warehouse efficiency while cutting costs

SOLUTION

- LED lighting from Prologis Essentials

REAL RESULTS

- Lowered operational costs
- Increased employee productivity
- Reduced errors in picking, packing and shipping
- Improved employee job satisfaction
- Eliminated lighting-related disruptions

"We love our new lighting! It's amazing what a brighter space has done for our employees' morale and productivity. We're picking, packing and shipping with higher efficiency and with fewer errors. The cost saving is an added benefit, as well."

—Prologis warehouse manager
