

Summary: This document provides a summary of data Prologis provides annually to the federal [Equal Employment Opportunity Commission](#). Moving forward, this information will also be posted on Prologis.com to be readily available to other external stakeholders as well.

People of Color: As of April 2021, employees of color made up 30% of Prologis' US workforce. Within the field of Real Estate Investment Trusts (REITs), Prologis is ahead of the industry benchmarks for the percentage of our workforce that is made up of people of color. While this represents marked progress, we are committed to continued improvement and demonstrating leadership in the real estate space.

Gender makeup: The overall gender composition of the organization is relatively balanced 49% female and 51% male. However, there is an opportunity to increase gender balance within specific levels of the organization, specifically senior leadership. The company has seen a steady increase of female representation at the first and mid-level manager level from a low of 29% in 2012 to a high of 40% in Q1 of 2021. In this same time frame, female representation at the executive level remained fairly consistent.

How does Prologis compare? Today, Prologis is more ethnically diverse (30%) than its key industry benchmark (2020 NAREIM: 27%), though still behind its goal of 31.9%. Prologis also has higher rates of gender diversity overall while the gender diversity rates at executive and first and mid-level management levels are on par with the industry.

How did we get here? A formal Diversity, Equity and Inclusion (DEI) strategy was first formed in 2016 with the focus of increasing diverse representation throughout the organization. These efforts have been successful on three fronts:

1. We have seen an increase in female representation amongst the first and mid-level managers.
2. We now have more ready talent to occupy executive level position in the near- and long-term future.
3. Since Jan 1, 2020, PLD has increased its overall diversity by 200 bps, with a 70 basis points (bps) improvement coming from the first quarter of 2021 alone.

Action plan

- **Increasing I&D resources:** In June 2021, a new role was added to the Human Resources (HR) team to support all DEI efforts. The director of Talent & Inclusion is responsible for building inclusive talent practices from the beginning to the end of our associates' employment journey. This will include advising on talent acquisition strategies, mitigating implicit biases in the interview process, ensuring equal opportunities for advancement to all employees and fostering a healthy culture that allows everyone to bring their full selves to work. The primary objective of the role is building a culture where inclusion and diversity is a priority for all leaders to ensure we thrive as an employer for all people.
- **Inclusive leadership:** Prologis' management team is committed to visibly holding ALL leaders accountable for I&D and not employ leaders who don't exemplify our cultural traits. As part of this commitment, a new leadership development workshop and entire employee life cycle approach is in development for rollout in 2021.
- **Keep the / in I&D:** We will visibly hold all employees accountable for working respectfully, which reinforces an inclusive culture. Prologis is improving its *capacity* to be inclusive by improving

how we evaluate talent, including conversations with individuals about their potential and development within the company. Just as a world class Industrial Real Estate organization employs extraordinary precision in discussing the *features* and *attributes* of industrial properties to unlock their true value, so too must a world class *talent* organization improve its ability to objectively discuss talent, capabilities and behaviors in order to unlock and harness the potential of its employees.

- **Reinforce value:** Our progress since 2019 demonstrates a deliberate organizational focus coupled with proactive HR strategies has and continues to increase the number of POC employees in our workforce. Our commitment to both attracting diverse talent and creating an inclusive culture will allow us to continue to retain talent we hire.
- **Tie compensation to DEI:** We tie our overall leadership assessment, and our corporate and individual goals to DEI metrics, using data from engagement surveys, equal pay analysis, and hiring and retention to achieve our results.
- **Tackle unconscious bias:** We continually assess the experience of our employees to determine areas of needed focus. We know that equity doesn't happen by accident and a healthy discussion of equality versus equitable treatment for diverse employees needs to be part of an organizational awareness and dialogue. Prologis will continue to conduct annual engagement surveys that include benchmarked DEI questions. We will continue to develop data-driven action plans and track key performance indicators (KPIs) for improving our DEI.
- **Develop new approaches to top talent:** In 2020, we implemented a High Potential Employee (HiPE) program targeting universities with top 5 rankings in specific degrees (STEM) and diversity graduates. The first class, made up of recent Master's graduates was 100% diverse and represent the next generation of leaders.
- **Demonstrating industry leadership:** While we have worked hard to increase the diversity of our workforce, we know that our industry as a whole has an opportunity to better include and advance diverse individuals. To this end, we partner with industry leading organizations like ULI, NAIOP, NAREIT, REAP and other industrial real estate-focused organizations to broaden our candidate pool and ensure equal access to opportunities in the industry. We actively participate in these organizations with members of our leadership team joining committees, organizing recruiting efforts and acting as mentors to diverse individuals looking to join or advance their careers within our industry.

We are also investing in creating more job opportunities in the logistics industry as a whole, which we expect to benefit young people of color. Through our [Community Workforce Initiative](#), we've committed to training 25,000 people for logistics-related work. Additionally, we are partnering with the Association of Supply Chain Management on a [new certificate program](#) in warehousing skills. Through these efforts we also network with other sector leading companies to ensure we implement broad based solutions that benefit large cross sections of the communities where we work and live.
