WELL PLACED AND WELL CONNECTED

Prologis Park West London is an established and well managed logistics park strategically positioned to access the major consumer markets of West and Central London, Heathrow Airport and Thames Valley.

External recreational areas, local amenities and a canal walk on your doorstep, make Prologis Park West London a fantastic place to work.

Two units are under construction, DC5 (195,719 sq ft) and DC6 (143,849 sq ft), which will be available in Spring 2023. These brand new units offer high quality warehouse space for you to occupy.

A GREAT PLACE TO WORK

We believe that logistics employees deserve the best places in which to work. Surrounded by landscaped open spaces, the grass is most definitely greener at Prologis Park West London.

The well-maintained environment has been designed to protect and enhance wildlife as well as creating surroundings for everyone working on the park to enjoy.

Fronting the Grand Union Canal, Prologis Park West London offers waterside walks and cycle routes including a heritage trail along the tow-path of Britain's longest canal. It's a lively and dynamic area with an on-site nursery. Stockley Park Arena is a short walk away and provides a range of restaurants, coffee shops, bars, hotels, shopping, a health club and golf club/course.

PUT DOWN SOME SUSTAINABLE ROOTS

At DC5 and DC6 Prologis Park West London, not only will you get a building you can tailor to your needs, you'll get a space that works as hard as you do.

Over the past twenty years, we've been leading the way in developing innovative, sustainable buildings, designed with the operational needs of your business in mind. Occupying a building that's both smart and sustainable can help you meet your ESG targets.

Your new building has been constructed to minimize energy use and is 'Beyond Net Zero Carbon – Construction' when considered against the UKGBC Framework for Net Zero Carbon Buildings. It incorporates low and zero carbon technologies as standard, which can be further expanded to meet your specific needs. For example, Prologis Park West London Phase 2 DC5 has a 227 kWp Rooftop Solar Array, capable of generating over 199,344 kWh of free electricity per annum and DC6 has a 198 kWp Rooftop Solar Array, capable of generating over 158,967 kWh of free electricity per annum, and with both buildings having electric VRF heating and cooling systems as standard to the offices, your new building is at the forefront of sustainable development.

To add to the sustainable provision at DC5 and DC6, electric cycle charging facilities will be provided to promote the use of energy efficient, emission free transportation for your employees and visitors, along with ducting to the car park for future EV use.

WE TAKE RESPONSIBILITY AND DELIVER

As the long-term owner of the buildings and logistics parks we create, we feel passionately that we should play our part in reducing carbon emissions in our buildings to bring the benefits of sustainability to our customers, the local community and beyond.

This ethos sits at the heart of our sustainability strategy and influences the way we build and refurbish our buildings and interact with the local community and beyond.

This ethos is shown during the construction of Prologis Park West London DC5 and DC6 as 100% of the materials from the previous buildings on site have been recycled - not a single part has been sent to landfill. Which goes to show that sustainability is something we highly value at Prologis.

Through our partnership with the charity Cool Earth, your building helps protect acres of rainforest.
