

Simplified Racking Solutions

Pre-designed racking options for a quick start

Getting operations up and running quickly and efficiently after you move in is critical. Prologis engages with experienced partners to provide pre-designed racking for the most common rack configurations. Preconfiguring racking is just part of our commitment to help you make a fast start on success with your new facility.

Have custom needs?

Do you have more specific needs, or do you want to optimize your material handling workflows? Our partners can help you design the best racking solution for your business.

Prefer used?

Whether you prefer new, custom, used or refurbished racking, we can show you options. Further, we provide rack removal services when you redesign your facility or it's time to move out.

We work as your trusted partner.

Your Prologis Essentials team will be there every step of the way to make sure your needs are met on time and to your satisfaction.

Convenient, Cost-Effective, Trusted
