Prologis Park Prague-Chrástany

Chrástany, D5

30,830 square meters of industrial space

25 kilometers to Prague city center

10 kilometers to the airport

About the park

Prologis Park Prague-Chrástany is a new park that is being developed in the highly prized logistics locality of Prague. The park comprises of three buildings totaling 30,830 sqm. Each facility is being constructed using BIM modelling techniques and offer the ultimate in modern, sustainable solutions and above-standard features, including LED lighting, solar hot water heating in the office spaces, online smart metering for utilities, thicker thermal and roof insulation, 10-meter clear height, and 26 loading docks. The buildings have BREEAM certification.

Location

Prologis Park Prague-Chrástany enjoys a premium location close to major arteries, transport hubs and nodes, and consumption centers. At the entrance to the Prague ring road and adjacent to the D5 motorway, the park is an ideal distribution hub for domestic and international services. Prague city center is just a 25-minute drive away (13 km) and the airport 10 minutes away (6 km). The Czech Republic's fourth largest consumption center, the western Bohemian city of Pilsen (Plzeň) is 81 km away. For employees of the park, Metropole Zličín Shopping Center, on the B-line metro station Zličín, is five minutes by car or bus.

Advantages

Strategic location

Ample parking spaces

Smart metering system

Representative office space

By D5 motorway

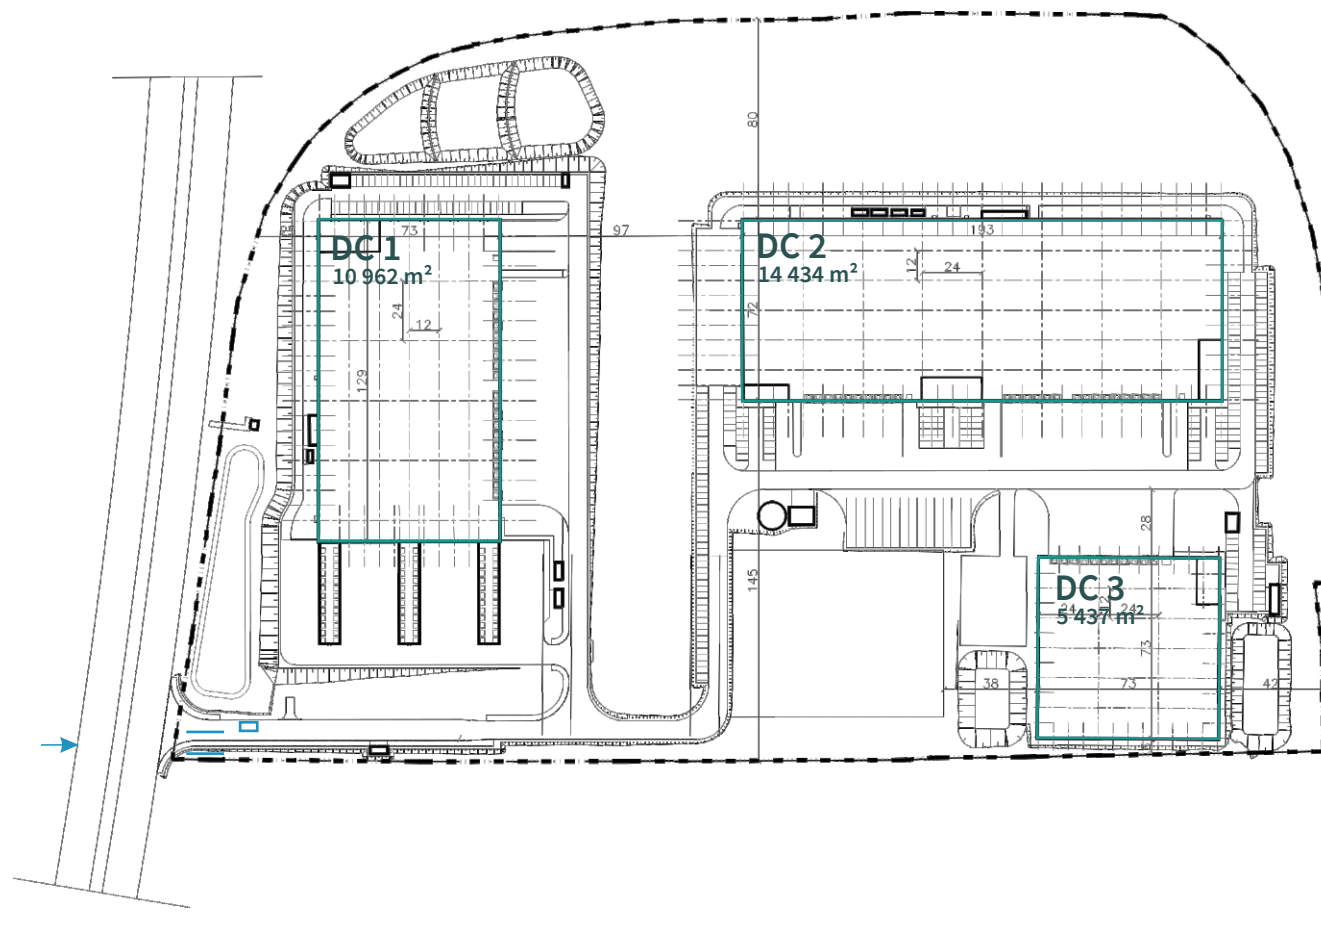

Green areas

CCTV System

Dedicated Prologis
property management team

Features of the buildings

Clear height 10 m

Floor loading capacity 5T/m²

ESFR sprinkler system

Wide manoeuvring truck court

Drive-in doors

Technical support on site

External LED lighting

Prologis Essentials

For easy set up and smooth operations

When it comes to getting your warehouse up and running, we've got you covered.

Prologis Essentials is the first complete warehouse solutions platform that lets you run, optimize and grow your business; how, when and wherever you want.

It conveniently brings you all the set-up and operational equipment needed for a cost effective, quick and carefree start. It is your source for replacements, upgrades or temporary solutions as well – making life easier and giving you back valuable time.

FORKLIFTS

An easy and cost-effective solution for preconfigured forklifts, reach and pallet trucks, from our world-class partners.

RACKING

The right racking system to suit your needs – a fast and easy service that makes arranging racking simple.

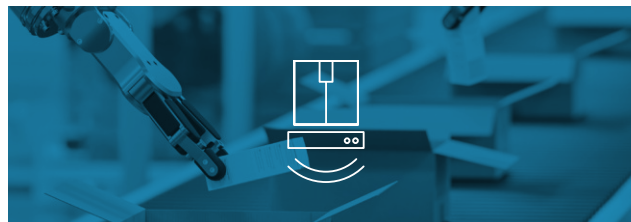

SOLARSMART

Harness green energy and benefit from onsite power while reducing your carbon footprint.

LED LIGHTING

Efficient and reliable upgrade to 'smart' lighting with movement and daylight controls at an incredibly low price.

WAREHOUSE ROBOTS

Transform your fulfilment and order picking with efficient, multi-bot systems to suit all needs.

SAFETY

Durable protective gear to help look after people, materials, fittings and equipment in any warehouse environment.

Our services

Transport

We offer our clients a number of solutions that facilitate everyday commuting to work and returning home. We provide access to various forms of public transport, and for those commuting by bicycle, we have prepared special bicycle shelters in some of our parks. We have installed electric car charging stations in some Parks, and in Hungary we also provide a free car sharing platform.

Environment

We retain ownership of all our parks, which means that we put up signage all around the sites and individual buildings, manage all the landscaped areas, maintain the network of pedestrian walkways, and perform general cleaning services to provide a safe and attractive place to work. Some of our parks have canteens and food truck areas offering a variety of meal choices for all employees who work there.

Wellbeing

As a committed supporter of healthy lifestyles and wellbeing, we design our parks to include recreational areas, where employees can enjoy outdoor activities, picnics or just taking a break during a busy day. Some of our parks in CE have five-a-side football pitches with barbecue places, which also provide an opportunity for our customers to organize company events or simply relax after or during work hours.

Security

The safety and security of all our customers is a top priority and we take care to implement the best measures and services for each Prologis Park. We provide a guard house, an on-site 24/7 security service and a dedicated CCTV system with recording, and the majority of our parks are fully fenced. In addition, license plate reader systems support automated entry control in Poland, the Czech Republic and Slovakia, and will soon do so in Hungary as well.

Working community

Our aim is to foster strong and lasting relationships with all our customers and the communities in which we operate. We organize school visits in Poland and sporting tournaments in Hungary, Slovakia and the Czech Republic. On the Prologis annual IMPACT Day, our employees around the globe take part in a range of volunteer programs to give something back to the communities in which they live and work.

Our services

More than a modern warehouse

Our park-wide services

At Prologis, we provide much more than just four walls and a roof for our customers. We aim to create a working environment for all our customers. We own, manage and maintain all the buildings in our parks, so our customers can benefit from a range of park-wide services that we have designed to support their business operations. These services are the foundation of our new PARKlife concept, which we TM have launched in five pilot parks in Central Europe. Over the coming years we will continue to roll out the program in all our parks in the region.
